

Ignition

Ignition is an exciting new joint initiative between Bible Society Australia and the United Evangelistic Council. Ignition will help churches, schools and other Christian groups share the good news of Jesus by joining together to host evangelistic youth events in 2020.

Ignition events are for young people in years 6-12 at school – for students involved in church, students curious about church, and even students who have never been to church! The events are aimed at presenting the message of Jesus in a way that is loving and sensitive to every individual's own journey.

Lots of different types of events can be organised – some big, others small. It could be a concert, a youth festival over several days, or even a sports night, all with Gospel talks. Our full resource pack will help you prepare for your event, and our team will work alongside you to answer any questions you may have. It's up to you, and the churches / schools / groups you partner with, to decide what your event will look like!

If you're interested in hosting an Ignition event, we'd love to support you with a financial grant (up to \$2000 as necessary) and a bunch of free resources, including free Gospels, to assist with your event.

We'll also provide a pre-event evangelism course to run with your youth as well as a follow up course for young people who are curious about Christianity.

For more information or to apply to host an Ignition event, please visit our website – www.ignition.org.au
